EDUCATION

University of West London

Bachelor of Science in Computer Science (Hons)

Ealing, London

Jan 2026

Sadhbhavana World School

A-Level

Calicut, Kerala, India

Dec 2019

EXPERIENCE

Web Developer (Freelance)

Remote

B&A Systems

- Developed a single-page static website for B&A Systems, a business specializing in Quantitative Analytics for UCITS Fund Managers and Wealth Advisors.
- Delivered the website in a couple of days, providing a professional and modern online presence that reflects the company's industry expertise.
- Used vanilla web development (HTML, CSS, JavaScript) and Tailwind CSS for a clean, responsive, and user-friendly design.
- Integrated Git for version control and deployed the website with Cloudflare Pages, ensuring fast, reliable hosting with automatic deployments.
- Set up email routing through a contact form, allowing seamless communication and automated email notifications for client inquiries.
- Configured a custom email address for both sending and receiving emails, streamlining communication for the business.
- Worked closely with the business owner to ensure the website effectively represents their financial analytics services to potential clients in wealth management.

PROJECTS

Portfolio Website | *HTML, CSS, JavaScript, Tailwind CSS*

Ongoing

- Created a personal **portfolio website** to showcase my skills, projects, and experience as an aspiring web developer.
- Designed and built the website using **vanilla HTML, CSS, and JavaScript**, focusing on clean, responsive design and a smooth user experience.
- Utilized **Tailwind CSS** to quickly implement a responsive and modern layout, ensuring compatibility across devices.
- Planned future updates, including switching to **React** to enhance interactivity and structure for better scalability and performance.

TECHNICAL SKILLS

Languages: Python, Kotlin, HTML, CSS, JavaScript, Go, XML

Frameworks: Godot, Bootstrap, Tailwind CSS, Material UI

Developer Tools: Vite, Git, Docker, Figma, Cloudflare Pages, Firebase
